

Equestrian Flooring

At Van Dyck, we supply the best rubber and rubber crumb products available for all your equine needs including stables, horse walkers, transport, racecourses, and veterinary clinics. These rubber floors are manufactured in such a way as to be virtually indestructible and yet environmentally friendly at the same time. Van Dyck Equine Rubber Floors are available in different thicknesses and colours to suit any budget providing your horses with a comfortable, non-slip surface on which they feel confident, calm, secure and relaxed.

"Powering the future with **sustainable solutions**"

VAN DYCK

Rubber Pavers & Tiles

Dog Bone Paver

Size: 200 mm x 160 mm
 Thickness: 15mm - 50mm
 Approx 31.25 units per sqm

Brick Paver

Size: 200 mm x 100 mm
 Thickness: 15mm - 50mm
 50 units per sqm

Tile

Size: 500 mm x 500 mm
 Thickness: 20mm - 50mm

These products are very popular for parade rings and walkways at many racecourses throughout Europe. Rubber pavers are also great for inside horse walkers. Van Dyck Rubber pavers are fully elastic, weather proof, water permeable, frost proof, durable and slip resistant. Made of tough rubber particles that are bound by an environmentally polyurethane binder.

A conglomerated moulded rubber crumb tile/paver ideal for horse walkers and areas of movement and activity. Can also be used for general areas of paving offering a warm, safe and comfortable surface.

- Heavy duty durable crumb rubber
- Easy interlocking design for area coverage
- Slip resistant finish
